

Nix Industrial Drone Tender Platforms For Truck or Trailer Installations

**ALUMINUM FRAME FOR DURABILITY
AND LIGHTWEIGHT TRANSPORT**

**CUSTOMIZABLE SIZING FOR YOUR
UNIQUE AGRICULTURE NEEDS**

**TWO 400 GALLON TANKS WITH
CONSTANT AGITATION**

Durably-Built for Agricultural Efficiency

Our drone tender platforms are a specialized aluminum-framed platform designed to support drone operations for agricultural use. It serves as a mobile base station installed on the back of a truck, trailer, or semi trailer, making it easy to transport and operate drones in the field. The platform can be customized in size to fit different trucks or trailers.
